Disability Insurance

from Allstate Benefits

Benefits are paid directly to you when disabled

Provides a monthly benefit if you are disabled and cannot work

1 CHOOSE

You select coverage, which can help protect your income if faced with a disability

2 USE

You're in an accident and suffer a disabling injury. You are unable to work and your paycheck stops

3 CLAIM

You file a claim online to begin receiving your cash benefit each month you are disabled

Like most, unless you know someone who has been disabled, you may not see the value of Disability Insurance. You may think it won't happen to you, but if it does, you are vulnerable to lost income.

57 percent of working Americans have no disability insurance and are therefore vulnerable to losing their income due to an illness or injury¹

A disability or illness may slow you down, but it won't slow down your monthly bills. Expenses such as house and car payments, or even daily expenses such as groceries and gas, will still need to be paid. Disability insurance can help replace your lost income and help assure your finances are not depleted.

Here's How It Works

You choose the maximum monthly benefit level that meets your needs. Then, if you are faced with a period of unexpected sickness or injury, you will receive a cash benefit each month to use as you see fit. This could include medical treatments, daily living expenses and more.

With Allstate Benefits, you gain the power to make treatment decisions without putting your finances at risk.

Are you in Good Hands? You can be.

Key Features

- You choose the monthly maximum benefit level that meets your needs
- A monthly benefit ranging from \$400 - \$5,000, up to 60% of income*
- Benefits start the first day after your elimination (waiting) period
- Premiums are affordable and conveniently payroll deducted

The amount we pay you will be in proportion to your earnings compared to all disability coverage you have for that disability and will always be at least \$200. If this happens, we will also refund the pro-rata amount of the premium you paid in relation to the benefit we paid you.

your benefit coverage

What if your life or the life of your loved one was cut short by an unexpected death or terminal illness during the next 20 years, how would you or your spouse and children survive financially?

Would you be able to afford your mortgage? If you have children would they require child care and/or money to pay for their daily living expenses such as, food, clothing, tuition and college education? And if they play sports there would be additional expenses.

The thought of losing a loved one is something you may not want to consider. As you can see above, the final expenses and daily bills that would continue would only add to the stress of losing a loved one. Our coverage may be used to help you: pay off a mortgage or debts, provide for childcare or educational expenses, or replace income to continue the same standard of living.

Term life coverage can help add additional support to your financial wellbeing by offering additional coverage in 20 year increments, and it can automatically renew every 20 years until you reach age 70. Best of all, it is very affordable. In fact, it is more affordable than traditional life coverage and can easily be converted to a permanent life policy with no tests to take or questions to answer.
